

"Energy Efficient, Easily Maintained, Effective Designs, and Every Owner Satisfied."

Salyersville Elementary School Boiler Replacement

Project consisted of the replacement of the original coal fired cast iron boiler with two new natural gas fired cast iron boilers along with all related hydronic piping and building circulating pumps. A new natural gas service was brought to the building as a part of this project to fuel the new boilers. Electric work included the installation of power connections to the new boilers and pumps and the installation of boiler emergency shutdown switches.

Owner: Magoffin County Board of Education

Location: Salyersville, Kentucky

Construction Cost : \$106,560.00

Date Completed: August 2004

Pictures shown below depict old coal fired boiler and new natural gas fired boilers.
